Total Credit Hours 44 Hours

*

ADVISING PROCEDURES:

- x Never register for courses without consulting your advisor.
- x All prerequisites - as identified in the Spelman College Bulletin - must be strictly followed.
- x Never save major electives until the end: advanced core courses are premised on your having already completed several electives.
- x When choosing general electives, choose courses that help prepare you for your thesis research.
- x Three (3) core courses can NOT be taken in one semester.
- x All major courses should be taken at Spelman. Only the chair can approve major courses taken at other institutions (i.e. summer school, domestic exchange and study abroad).
- x Students should avoid enrolling in Sociology Internship and Senior Thesis during the same semester, unless they are related to each other and you have approval from your advisor or the Department Chair.
- x Students may not enroll in Senior Thesis without completing all major core courses besides Contemporary Social Theory. All other core courses in the major must be completed and passed before enrolling in Senior Thesis.
- x Interdisciplinary Big Questions Colloquia (BQC): One semester is required by all Spelman first year students, and carries a letter (A-F) grade.
- x “Unique” circumstances require advising by the department chair.
- x ALL SENIOR, TRANSFER & PAULINE E. DRAKE SCHOLARS MUST be advised by department chair.
